taskno2.c

```c
#include<stdio.h>
int main(){
    int number;
    //ask user for a number
    printf("enter a number.");
    scanf("%d",&number);
    //check if number is even or odd
    if(number%2==0)
    {printf("%d is an even number.\n",number);
} else
    {
    printf ("%d is an odd number.\n",number);
}
return 0;
}
```
